## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 9 is rejected under 35 U.S.C. 102(b) as being anticipated by Middleditch (USP 3,699,317).

Regarding claim 9, Middleditch teaches a method of measuring discrete, incremental feedback from motion systems that create feedback pulses (Col.7, lines 61-68, Col.8, lines 20-53), the method comprising: providing for a variable feedback pulse sampling period (e.g. Col.30, lines 7-10); and accumulating feedback pulses during each sampling period (e.g. Col.29, lines 35-40).

### ***Allowable Subject Matter***

3. Claims 1-8 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

In combination with other limitations of the claims, the cited prior arts fails to teach a method of measuring discrete incremental feedback from motion systems that create feedback pulses, wherein the method comprising: establishing a minimum feedback pulse sampling period; upon the first feedback pulse after the minimum feedback pulse sampling period, ending the current

sampling period and beginning the next sampling period; and determining the quantity of feedback pulses accumulated during the current sampling period, as recited in claim(s) 1.
